

AMENDMENTS TO THE SPECIFICATION

Please amend the abstract as follows:

A method and system is ~~disclosed-~~ provided for ~~displaying~~ communicating service and maintenance information about equipment located at distributed building sites ~~online~~. A customer web portal is provided with a database for storing the equipment service information. The web portal provides an efficient way of determining the service activity for equipment located at distributed sites without the need for maintaining service related information at each site. The user can also obtain information about individual service orders and service agreements for individual pieces of equipment.

Please amend the line 7, page 1 of the specification as follows

The following patent applications cover subject matter related to the subject matter of the present invention: "Method and System for Obtaining Service Contract Information" U.S. Patent Application No. 10/629,226 ; "Method and System for Obtaining Service Information about one or more Building Sites" U.S. Patent Application No. 10/628,977; " Method and System for Obtaining Information about a Building Site"; U.S. Patent Application No. 10/629,229; "Method and System for Obtaining Operational Data and Service Information for a Building Site" U.S. Patent Application No. 10/628,976.
